

Prize Format

For 2010 we have switched to a simplified format. The order the prizes are selected will be solely based on the size of the qualifying fish regardless of species. For example, a 16 lb. blue would select a prize before a 15 lb. bass.

Obviously, the selection order for merchandise favors striped bass as they are the largest and the most sought after species. After all, we are the Berkeley Striper Club, not the Berkeley Bluefish Club. If the standings for any species are unfilled, the prize(s) will be transferred and additional places for the other species will be added.

Winners will be able to choose their merchandise prizes at our awards ceremony. If winners are not present, the remaining prize with the highest value will be set-aside for them.
